The Program in Nursing Science invites you to attend the

Nursing Science Translational Research Seminar Series

Sponsored by

Robert Wood Johnson Foundation

and

UC Irvine Institute for Clinical and Translational Science (ICTS)

Featuring

PATRICIA A. GRADY, PHD, RN, FAAN

Director, National Institute of Nursing Research

Dr. Grady will discuss clinical translational science as a method used by nursing professionals to implement changes that improve the quality and delivery of health care in the United States. She will specifically highlight the role professional nursing will play in achieving the goals of the Institute on Medicine's report on the “Future of Nursing”.

Monday, February 27, 2012

1:00 pm Lecture - 2:30 pm Reception

Beckman Center of the National Academies of Sciences and Engineering

100 Academy, Irvine, CA 92617

The Nursing Science Translational Research Seminar Series brings internationally renowned leaders from nursing to discuss clinical translational science as a tool for advancing the nation's health through community-based, clinically relevant, interdisciplinary research. The seminars provide an opportunity for all interested UCI researchers and members of the community to learn more about how nursing professionals from clinical and academic settings can serve as partners in community-based translational research projects that benefit local community health.

Dr. Patricia A. Grady was appointed Director, NINR, on April 3, 1995. She earned her undergraduate degree in nursing from Georgetown University in Washington, DC. She pursued her graduate education at the University of Maryland, receiving a master's degree from the School of Nursing and a doctorate in physiology from the School of Medicine.

An internationally recognized researcher, Dr. Grady's scientific focus has primarily been in stroke, with emphasis on arterial stenosis and cerebral ischemia. She was elected to the Institute of Medicine in 1999 and is a member of several scientific organizations, including the Society for Neuroscience, the American Academy of Nursing, and the American Neurological Association. She is also a fellow of the American Heart Association Stroke Council.

There is no cost to attend, but please RSVP to NSEVENTS@UCI.EDU.
