**Predoctoral Public Fellowships**

**Name:** Aging Research Dissertation Awards to Increase Diversity

**Due Date:** Cycle 1: 2/16, Cycle 2: 6/16, Cycle 3: 10/16

**Interest:** Minority

**Eligibility:** Applicants for dissertation support who will increase diversity on a national basis. Individuals from racial and ethnic groups that have been shown by the National Science Foundation to be underrepresented in health-related sciences on a national basis (see most recent data and report at [http://www.nsf.gov/statistics/wmpd/](http://www.nsf.gov/statistics/wmpd/)). The following racial and ethnic groups have been shown to be underrepresented in biomedical research: African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and other Pacific Islanders.

The applicant must have a baccalaureate degree and be enrolled in a PhD or equivalent doctoral-degree program (eg, Dr PH, DNSC and ScD), a formally combined MD/PhD program or other combined professional/clinical and research doctoral program in the biomedical, behavioral and social, and clinical sciences at an accredited domestic institution.

**Tuition:** No

**Stipend:** Total allowable costs per year are the current Fiscal Year National Research Service Award (NRSA) predoctoral stipend level ([http://grnats.nih.gov/training/nrsa.htm#policy](http://grnats.nih.gov/training/nrsa.htm#policy)) and up to $20,000 for additional expenses. No funds may be used to pay tuition or other fees associated with completion of doctoral studies.

**Other:** Support is provided for up to two (2) years.

---

**Name:** American Psychological Association Minority Predoctoral Fellowship Program in Neuroscience

**Due Date:** January 15

**Interest:** Neuroscience

**Eligibility:** U.S. citizens, permanent residents or noncitizen nationals. Have a strong commitment to a career in ethnic minority behavioral health services or policy. Enrolled full-time in an APA-accredited doctoral program during the fall term immediately following the application deadline. Not interns; no fellowship support is available during a student's internship year. It is not required for applicants to identify as ethnic minorities; however, African-Americans, Alaska Natives, American Indians, Asian-Americans, Hispanics/Latinos, Native Hawaiians and Pacific Islanders are especially encouraged to apply.

**Tuition:** No

**Stipend:** Yes, varies year to year. See webpage for more information
Name: Department of Energy Computational Science Graduate Fellowship

Due Date: January 27, 2015, 5:00pm CST

Interest: Scientific or engineering discipline, computer science, applied mathematics.

Eligibility: Students must be planning full-time, uninterrupted study toward a Ph.D. degree at an accredited U.S. university. Students in their first year of graduate study in engineering, mathematics, or the physical, computer, or life sciences are eligible to apply for the Computational Science Graduate Fellowship (CSGF). Senior undergraduates who can meet all the requirements listed in this application may also apply. DOE CSGF eligibility requirements have changed beginning with the 2014 application year. The fellowship will no longer accept second-year graduate students. Senior undergraduates and first-year graduate students are eligible to apply. Applicants must be either U.S. citizens or permanent resident aliens.

Tuition: Full tuition and required fees will be paid.

Stipend: A yearly stipend of $36,000. A $5,000 academic allowance in the first fellowship year and a $1,000 allowance each renewed year.

Name: Drug Abuse Dissertation Research: Epidemiology, Prevention, Treatment, Services, and Women and Sex/Gender Differences (R36)

Due Date: Cycle 1: 2/16, Cycle 2: 6/16, Cycle 3: 10/16

Interest: Neuroscience

Eligibility: Applicants for dissertation support who will increase diversity on a national basis. Individuals from racial and ethnic groups that have been shown by the National Science Foundation to be underrepresented in health-related sciences on a national basis (see most recent data and report at [http://www.nsf.gov/statistics/wmpd/](http://www.nsf.gov/statistics/wmpd/)). The following racial and ethnic groups have been shown to be underrepresented in biomedical research: African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and other Pacific Islanders.

The applicant must have a baccalaureate degree and be enrolled in a PhD or equivalent doctoral-degree program (eg, Dr PH, DNSC and ScD), a formally combined MD/PhD program or other combined professional/clinical and research doctoral program in the biomedical, behavioral and social, and clinical sciences at an accredited domestic institution.

Tuition: No

Stipend: Grants to support dissertation research will provide no more than $50,000 in direct costs per year.

Other: The maximum period is two years, with the possibility of extension without additional funds for up to 12 months.
Name: National Defense Science and Engineering Fellowship

Due Date: December 12, 2014, 5:00pm EST

Eligibility: There are four eligibility requirements: citizenship, discipline, academic status, and the ability to accept the full benefit. You must meet all four requirements in order to be eligible.

The NDSEG Fellowship Program is open only to applicants who are citizens or nationals of the United States. Exceptional circumstances may qualify other applicants as being at an early stage of their graduate studies, therefore making the applicant eligible for consideration.

Applicants who have received a medical degree or PhD in science or engineering are not eligible for the NDSEG fellowship.

You must intend to pursue a doctoral degree in order to be eligible for NDSEG Fellowship support.

Tuition: Yes (Paid in full by DoD).

Stipend: 12 month stipend; $31,500.

Other: The NDSEG Fellowship Program will also pay for the medical insurance coverage offered through the institution, up to a total value of $1,000 per year (this excludes dental and vision insurance). Any excess insurance costs will be the responsibility of the fellow.

Name: National Research Service Awards (NRSA) for Individual Pre-Doctoral Fellowships (F31)

Due Date: Cycle 1: 4/8, Cycle 2: 8/8, Cycle 3: 12/8

Interest: Uncategorized

Eligibility: Any applicant fellow with the skills, knowledge, and resources necessary to carry out the proposed research as the Project Director/Principal Investigator (PD/PI) is invited to work with his/her sponsor and organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support. Multiple Principal Investigators are not allowed.

By the time of award, the individual must be a citizen or a non-citizen national of the United States or have been lawfully admitted for permanent residence (i.e., possess a currently valid Permanent Resident Card USCIS Form I-551, or other legal verification of such status).
The applicant fellow must be at the dissertation research stage of their training and must show evidence of both high academic performance in the sciences and substantial interest in a research area of high priority to the participating Institutes.

The applicant fellow must have a baccalaureate degree and be currently enrolled in a PhD or equivalent research degree program (e.g., EngD, DNSc, Dr PH, DSW, PharmD, PsyD, ScD), a formally combined MD/PhD program, or other combined professional/clinical and research doctoral (e.g., DDS/PhD) in the biomedical, behavioral, or clinical sciences at a domestic or foreign institution. The Kirschstein-NRSA F31 may not be used to support studies leading to the MD, DDS, or other clinical, health-professional training (e.g., DC, DMD, DNP, DO, DPM, DVM, ND, OD, AuD).

Students seeking support for pursuit of a combined degree program (e.g., MD/PhD, or DO/PhD, or DDS/PhD) also may be eligible to apply for the Kirschstein-NRSA for Individual Predoctoral MD/PhD Fellows (F30).

Tuition: NIH will contribute to the combined cost of tuition and fees at the rate in place at the time of award.

Stipend: NIH will adjust awards on the anniversary date of the award to ensure consistency with the stipend level in effect at that time.

Name: NSF Graduate Research Fellowships

Due Date: Late October and early November 2014

Interest: Uncategorized

Eligibility: The Graduate Research Fellowship provides three years of support for graduate study leading to research-based master's or doctoral degrees and is intended for students who are in the early stages of their graduate study. Applicants must be United States citizens or nationals, or permanent resident aliens of the United States. Applicants are expected to have adequate preparation to begin graduate study and research by summer or fall of the application year. Applicants must have completed no more than twelve months of full-time graduate study or its equivalent by the August 31st prior to the program submission deadline. Medical sciences or research with disease-related goals, including work on the etiology, diagnosis or treatment of physical or mental disease, abnormality or malfunction in human beings or animals, animal models of such conditions, or the development or testing of drugs or other procedures for their treatment are ineligible for this award.

Tuition: $12,000 cost of education allowance for tuition and fees (paid to the institution).

Stipend: Three-year annual stipend of $32,000.
**Name:** Ruth L. Kirschstein National Research Service Award (NRSA) Individual Predoctoral MD/PhD or Other Dual-Doctoral Degree Fellowship (Parent F30)

**Due Date:** Cycle 1: 4/8, Cycle 2: 8/8, Cycle 3: 12/8

**Interest:** Uncategorized

**Eligibility:** Any applicant with the skills, knowledge, and resources necessary to carry out the proposed research as the Program Director/Principal Investigator (PD/PI) [for fellowships, this is the applicant] is invited to work with his/her sponsor and organization to develop an application for support for training in any research area within the mission of the NIH. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support. Multiple PDs/PIs are not allowed. By the time of award, the individual must be a citizen or a non-citizen national of the United States or have been lawfully admitted for permanent residence (i.e., possess a currently valid Permanent Resident Card USCIS Form I-551, or other legal verification of such status). Although a Kirschstein-NRSA award is not usually made for study leading to the MD, DO, DDS, AuD or similar professional degrees, or for study that is part of residency training leading to a medical specialty, the F30 program is specifically designed to support combined, dual-degree training leading to award of both a health professional doctoral degree (eg, MD, DO, DDS, AuD, DVM, PharmD) and a research doctoral degree (e.g., PhD, DrPH) from an accredited program. The applicant must have a baccalaureate degree, show evidence of high academic performance in the sciences, and commitment to a career as an independent physician-scientist or other clinician-scientist.

See webpage for more information

**Tuition:** N/A

**Stipend:** The most recent stipend levels are described on the [Kirschstein-NRSA webpage](https://kirschstein-nrsa.nih.gov). NIH will adjust awards on the anniversary date of the award to ensure consistency with the stipend level in effect at that time.

---

**Name:** Ruth L. Kirschstein National Research Service Award Individual Predoctoral Fellowship to Promote Diversity in Health-Related Research (Parent F31 - Diversity)

**Due Date:** Cycle 1: 4/13, Cycle 2: 8/13, Cycle 3: 12/13

**Interest:** Minority

**Eligibility:** Any applicant with the skills, knowledge, and resources necessary to carry out the proposed research as the Program Director/Principal Investigator (PD/PI) [for fellowships, this is the applicant] is invited to work with his/her sponsor and organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support. Multiple PDs/PIs are not allowed.
By the time of award, the individual must be a citizen or a non-citizen national of the United States or have been lawfully admitted for permanent residence (i.e., possess a currently valid Permanent Resident Card USCIS Form I-551, or other legal verification of such status).

See webpage for more information.

**Tuition:** 60% of the level requested by the applicant institution, up to $16,000 per year. If the trainee or fellow is enrolled in a program that supports formally combined, dual-degree training (eg, MD/PhD, DO/PhD, DDS/PhD, AuD/PhD, DVM/PhD), the amount provided per trainee or fellow will be 60% of the level requested, up to $21,000 per year.

**Stipend:** Up to $22,920. One stipend level is used for all predoctoral candidates, regardless of the level of experience.
