CME Credit from the University of California, Irvine

CME Objectives:
At the conclusion of the activity the participant should be able to:
1. Determine differential diagnoses for patients with facial pain subtypes
2. Distinguish trigeminal neuralgia from other facial pain syndromes
3. Identify dental causes for facial pain and understand their current treatment
4. Know the current best imaging modalities for the work-up of patients with facial pain
5. Identify current medical management for patients with the most common facial pain subtypes
6. Know when to appropriately refer patients for surgical evaluation and treatment
7. Identify current and emerging procedures and surgical techniques
8. Appreciate integrative therapies available for facial pain patients

Accreditation Statement
The University of California, Irvine School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement
The University of California, Irvine School of Medicine designates the educational activity for a maximum of 6.0 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

ADA Statement
In compliance with the Americans with Disabilities Act, we will make every reasonable effort to accommodate your needs. For any special requests, please contact Laurie Gumser at 714.456.3707.

AB1195
This activity is in compliance with California Assembly Bill 1195 which requires continuing medical education activities with patient care components to include curriculum in the subjects of cultural and linguistic competency. For specific information regarding Bill 1195 and definitions of cultural and linguistic competency, please visit the CME website at www.cme.uci.edu.

Disclosure Statement
It is the policy for the University of California, Irvine School of Medicine and University of California CME Consortium to ensure balance, independence, objectivity and scientific rigor in all CME activities. Full disclosure of conflict resolution will be made in writing via handout materials or syllabus.

Course Description:
This conference is designed for patients suffering with neuropathic face pain, including trigeminal neuralgia, as well as for their caregivers and the medical professionals who treat this condition. This is a multidisciplinary symposium addressing current and innovative concepts related to facial pain.

These concepts encompass diagnosis, medical and surgical management, emerging research, integrative therapy, as well as quality-of-life issues for individuals with trigeminal neuralgia and other facial pain syndromes.

Speakers will include nationally acclaimed experts in facial pain, including expert faculty from the UC Irvine School of Medicine.
