2011 UC Irvine Stroke Symposium

Neuroendovascular Management and Neurocritical Care of the Stroke Patient

OCTOBER 29, 2011
THE FAIRMONT HOTEL
4500 MACARTHUR BLVD
NEWPORT BEACH
CALIFORNIA

The 3rd annual UC Irvine Stroke and Cerebrovascular Center Symposium is offering a full-day CME symposium designed to increase awareness and offer the latest in advances of treatment of stroke patients from early identification through hospitalization and neuro rehabilitation. This activity will outline the standard of care as applied in internationally recognized stroke care and cerebrovascular centers. Participants will have an opportunity to engage in interactive discussions with renowned faculty who are involved in initiating these neurological advances.

TARGET AUDIENCE
Neurologists, neurosurgeons, neurointerventional radiologists, radiologists, neuroradiologists, physiatrists, primary care physicians, internal medicine physicians, family medicine physicians, nurses, nurse practitioners, physician assistants, paramedics, emergency medicine technologists, speech therapists, physical therapists, occupational therapists, and other healthcare professionals who wish to update their knowledge of the management of patients with stroke and select cerebrovascular diseases.

2011 UC Irvine Stroke Symposium

COURSE OVERVIEW

The FACULTY

Vivek Jain, MD
Assistant Clinical Professor
Department of Neurology
Medical Director, UC Irvine Stroke & Cerebrovascular Center
University of California, Irvine

Gregory W. Albers, MD
Director
Stanford Stroke Center
Professor of Neurology and Neurological Sciences
Stanford University Medical Center

Victor Marder, MD
Professor
Department of Medicine
Ronald Reagan, UCLA Medical Center

Bruce Delgado, MD
Professor
Department of Neurology
University of California, San Diego

Linda Abcara, MD
Assistant Clinical Professor
Department of Neurology
University of California, Irvine

Larry M. Al-Hayry, MD
Assistant Clinical Professor
Department of Neurology
University of California, Irvine

Armen Ondulak, MD, PhD
Assistant Clinical Professor
Department of Neurosurgery
University of California, Irvine

Randy S. Clayman, MD
Dean, School of Medicine
University of California, Irvine

Hamed Farid, MD
Assistant Clinical Professor
Department of Radiological Sciences
University of California, Irvine

Mark J. Fisher, MD
Professor
Department of Neurology
University of California, Irvine

Mauricio Gomez, MD
Assistant Clinical Professor
Director, Neuroscience ICU
Department of Neurology
University of California, Irvine

Anton N. Hasso, MD
Professor
Director, Neuroimaging Research
Department of Radiological Sciences
University of California, Irvine

Shuichi Suzuki, MD, PhD
Associate Professor
Director, Interventional Neuroradiology
Department of Radiology
University of California, Irvine

Mark E. Rosen, MD
Assistant Clinical Professor
Director, Neurocritical Care
Department of Neurology
University of California, Irvine

Bruce S. Schlag, MD
Professor
Department of Neurology
University of California, Irvine

Stephen L. Small, MD, PhD
Chair
Department of Neurology
University of California, Irvine

Steven C. Cramer, MD
Professor
Department of Neurology
University of California, Irvine

Hamed Farid, MD
Assistant Clinical Professor
Department of Radiological Sciences
University of California, Irvine

Shashank Daskalakis, MD
Assistant Professor
Director, Interventional Neuroradiology
Department of Radiology
University of California, Irvine

COURSE DIRECTOR

Vivek Jain, MD
Assistant Clinical Professor
Department of Neurology
Medical Director, UC Irvine Stroke & Cerebrovascular Center
University of California, Irvine

GUEST FACULTY

UNIVERSITY OF CALIFORNIA, IRVINE FACULTY

Bruce Delgado, MD
Professor
Department of Neurology
University of California, San Diego

Mark E. Rosen, MD
Assistant Clinical Professor
Director, Neurocritical Care
Department of Neurology
University of California, Irvine

Anton N. Hasso, MD
Professor
Director, Neuroimaging Research
Department of Radiological Sciences
University of California, Irvine

Shuichi Suzuki, MD, PhD
Associate Professor
Director, Interventional Neuroradiology
Department of Radiology
University of California, Irvine

Mark E. Rosen, MD
Assistant Clinical Professor
Director, Neurocritical Care
Department of Neurology
University of California, Irvine

Bruce S. Schlag, MD
Professor
Department of Neurology
University of California, Irvine

Stephen L. Small, MD, PhD
Chair
Department of Neurology
University of California, Irvine

Steven C. Cramer, MD
Professor
Department of Neurology
University of California, Irvine

Hamed Farid, MD
Assistant Clinical Professor
Department of Radiological Sciences
University of California, Irvine

Shashank Daskalakis, MD
Assistant Professor
Director, Interventional Neuroradiology
Department of Radiology
University of California, Irvine

COURSE OVERVIEW
LOCATION

ACUTE ISCHEMIC STROKE

9:30 am  Preliminary and Early Assessment of the Acute Stroke Patient
Vivy Jain, MD

10:00 am  MRI of Brain Ischemia: Technology, Terminology, Tissue and Time
Gregory A. Albers, MD

NOON  LUNCH

STROKE PREVENTION, RECOVERY

1:30 pm  Next Directions in Stroke Prevention
Mark Fisher, MD

2:30 pm  Chronic Kidney Disease—Emerging Risk Marker or Risk Factor for Stroke?
Bruce Ovbiagele, MD

2:45 pm  Brain Repair and Rehabilitation After Stroke
Steven C. Cramer, MD

INTRACRANIAL HEMORRHAGE

3:15 pm  Medical Management of ICH
Linda Abbeda, MD

3:45 pm  Medical Management of ICH: Intracranial Hemorrhage
Steven C. Cramer, MD

LEARNING OBJECTIVES

At the conclusion of this activity, participants should be able to:

- Discuss current and emerging treatment options for stroke and other cerebrovascular diseases to improve patient outcomes, with a special focus on acute endovascular and neurocritical care.
- Identify appropriate imaging techniques in the management of acute stroke and cerebrovascular disease to enable more efficient effective treatment.
- Apply the current evidence-based pharmacologic and lifestyle strategies for stroke prevention.
- Appreciate the role of rehabilitation in optimizing post-stroke recovery.

ACCREDITATION STATEMENT

The University of California, Irvine School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

DESIGNATION STATEMENT

The University of California, Irvine School of Medicine designates the live activity for a maximum of 25.5 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

ADA STATEMENT

In compliance with the Americans with Disabilities Act, all activities of this program are designed to be accessible and usable for diverse audiences, including those with physical, speech, or hearing impairments. If you need any special assistance or dietary restrictions, please contact us.

DISCLOSURE STATEMENT

It is the policy of the University of California, Irvine School of Medicine and University of California CME Consortium to ensure balance, independence, objectivity and scientific rigor in all CME activities. Full disclosure of conflict of interest will be made in writing on hard copy materials or syllabus.

REGISTRATION

Saturday, October 29, 2011
UC Irvine Medical Center

ON-SITE REGISTRATION LOBBY

CONFIRMATION INFORMATION

At the conclusion of this activity, participants should be able to:

- Discuss current and emerging treatment options for stroke and other cerebrovascular diseases to improve patient outcomes, with a special focus on acute endovascular and neurocritical care.
- Identify appropriate imaging techniques in the management of acute stroke and cerebrovascular disease to enable more efficient effective treatment.
- Apply the current evidence-based pharmacologic and lifestyle strategies for stroke prevention.
- Appreciate the role of rehabilitation in optimizing post-stroke recovery.
