The 3rd annual UC Irvine Stroke and Cerebrovascular Center Symposium is offering a full-day CME symposium designed to increase awareness and offer the latest in advances of treatment of stroke patients from early identification through hospitalization and neuro rehabilitation. This activity will outline the standard of care as applied in internationally recognized stroke care and cerebrovascular centers. Participants will have an opportunity to engage in interactive discussions with renowned faculty who are involved in initiating these neurological advances.

TARGET AUDIENCE
Neurologists, neurosurgeons, neurointerventional radiologists, radiologists, neurointensivists, physiatrists, primary care physicians, internal medicine physicians, family medicine physicians, emergency medicine physicians, nurses, nurse practitioners, physician assistants, paramedics, emergency medicine technologists, speech therapists, physical therapists, occupational therapists, and other healthcare professionals who wish to update their knowledge of the management of patients with stroke and select cerebrovascular diseases.

COURSE OVERVIEW
The 3rd annual UC Irvine Stroke and Cerebrovascular Center Symposium is offering a full-day CME symposium designed to increase awareness and offer the latest in advances of treatment of stroke patients from early identification through hospitalization and neuro rehabilitation. This activity will outline the standard of care as applied in internationally recognized stroke care and cerebrovascular centers. Participants will have an opportunity to engage in interactive discussions with renowned faculty who are involved in initiating these neurological advances.

TARGET AUDIENCE
Neurologists, neurosurgeons, neurointerventional radiologists, radiologists, neurointensivists, physiatrists, primary care physicians, internal medicine physicians, family medicine physicians, emergency medicine physicians, nurses, nurse practitioners, physician assistants, paramedics, emergency medicine technologists, speech therapists, physical therapists, occupational therapists, and other healthcare professionals who wish to update their knowledge of the management of patients with stroke and select cerebrovascular diseases.
LEARNING OBJECTIVES

At the conclusion of this activity, participants should be able to:

1. Discuss current and emerging treatment options for stroke and other cerebrovascular diseases to improve patient outcomes, with a special focus on acute neuroendovascular and neurocritical care.

2. Identify appropriate imaging techniques in the management of acute stroke and cerebrovascular disease to enable more efficient effective treatment.

3. Apply the current evidence-based pharmacologic and lifestyle strategies for stroke prevention.

4. Appreciate the role of rehabilitation in optimizing post-stroke recovery.

ACCREDITATION STATEMENT

The University of California, Irvine School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

DESIGNATION STATEMENT

The University of California, Irvine School of Medicine designates the live activity for a maximum of 7.5 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

CALIFORNIA ASSEMBLY BILL 1195

The California Assembly Bill SB1195 requires continuing medical education activities with patient care components to include curriculum in the subject of cultural and linguistic competency. It is the intent of the bill, which went into effect on July 1, 2006, to encourage those presenting continuing medical education to meet the cultural and linguistic concerns of a diverse patient population through appropriate professional development. The planners, speakers, and authors of this CME activity have been encouraged to address relevant issues in their topic area. In addition, a variety of resources are available that address cultural and linguistic competency, some of which are included in your syllabus or handouts. Additional resources and information about ASB1195 can be found on our website at www.ame.org.

ADA STATEMENT

In compliance with the Americans with Disabilities Act, we will make every reasonable effort to accommodate your needs. For any special requests, please contact Lpmeasure@uci.edu at 714.456.7307 on or before October 1, 2011.

DISCLOSURE STATEMENT

It is the policy for the University of California, Irvine School of Medicine and University of California CME Consortium to ensure balance, independence, objectivity and scientific rigor in all CME activities. Full disclosure of conflict of interest will be made in writing via handouts or syllabus.
