

UC Irvine Health

TechPortal Orange

As home to one of Southern California's premier academic research hospitals, UC Irvine Health prides itself on offering the field's most innovative medical care. In keeping with that mission, TechPortal Orange at UC Irvine Medical Center is the perfect place for the next generation of healthcare entrepreneurs to develop real-world applications for their cutting-edge research.

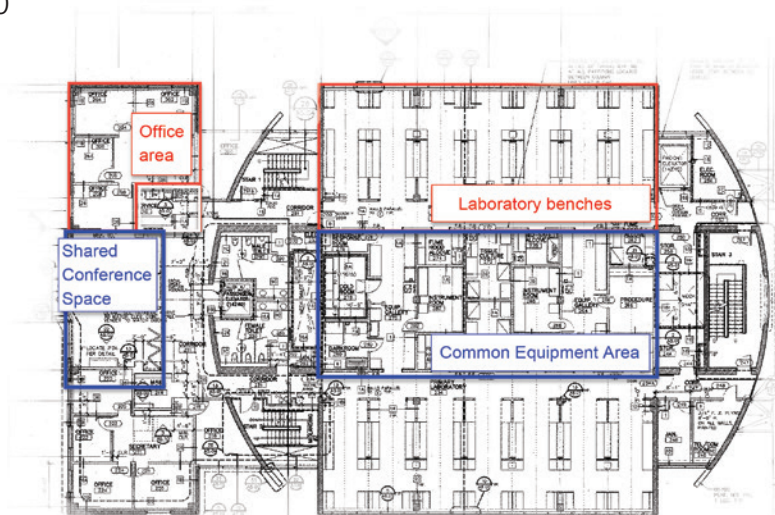

TechPortal Orange is the region's first clinically oriented biomedical incubator facility, offering access to high-tech research facilities and equipment at both UC Irvine Medical Center and the main UC Irvine campus, as well as professional assistance with business plans, networking and grant preparation.

Located in Southern California in the city of Orange, TechPortal Orange is housed within the Edward Shanbrom Hall on the UC Irvine Health Medical Center campus. This facility comprises 2,400 square feet of wet laboratory space and 750 square feet of office space.

Wet laboratory space can be leased in increments of 150 square feet (one lab bench), up to a capacity of 14 benches. Office space can be leased as half or full offices, up to a capacity of four offices.

The facility operates under the auspices of the UC Irvine School of Medicine, and is overseen by Medical Director Jaime Landman, MD; Associate Director Rosanne Santos, MBA; and TechPortal Orange Manager Christina Hwang, BS.

As TechPortal Orange tenants, you will have access to the following resources (fees may apply) within the UC Irvine campus and medical center:

- Approved animal use protocols (IACUC)
- Approved human subject/sample protocols (IRB)
- Approved biohazardous material protocols (IBC)
- Shared equipment resources including basic laboratory, surgical and high-end
- Pathology and CLIA diagnostic molecular pathology laboratories
- Business plan, preparation, and strategy assistance
- Consulting, collaboration, and networking opportunities
- Grant preparation and submission support

UC Irvine Medical Center

- UC Irvine Diagnostic Molecular Pathology Laboratory
- Institute for Clinical and Translational Science (ICTS)
- Surgical Education Center (Surgical suite & Simulation)
- Vivarium with Surgery Suites
- Fresh Tissue Lab
- Variety of conference rooms accommodating up to 50 individuals

UC Irvine Main Campus

- Edwards Lifesciences Center for Advanced Cardiovascular Technology
- UC Irvine Integrated Nanosystems Research Facility (INRF)
- National Center for Rapid Technologies (RapidTech)
- Institute for Clinical and Translational Science (ICTS)
- UC Irvine Institute for Genomics and Bioinformatics
- Genomics High-Throughput Facility
- Laboratory for Fluorescence Dynamics
- Optical Biology Core (OBC)
