

UC Irvine Willed Body Program Dedication Opportunities

At UC Irvine Health School of Medicine, we are dedicated to advancing our mission: Discover. Teach. Heal. Your consideration of our Willed Body Program is a testament to your passion for leading edge education and pioneering research in clinical care.

Options for memorializing a loved one are available at our Willed Body Program monument on the Irvine campus. The monument offers families and friends a peaceful place to pay tribute to loved ones who have participated in the Willed Body Program. An engraved brick is a lasting way to honor a special person.

Giving opportunity

Engraved brick: \$500
